WHITE BLOSSOM VODKA

A sophisticated floral twist on our signature small-batch vodka. White Blossom is infused with delicate, botanical elderflower and a hint of punchy grapefruit. The herbaceous floral character lends a soft mouthfeel and leaves traces of citrus on the palate. No chemicals, no additives, no corn syrup – we use real Michigan beet sugar for a crisper, lighter sweetness. Gluten-free. 20% fewer calories, 20% fewer carbs than leading flavored vodka alternatives. Bottled at 35% ABV/70 proof.

HOW IT'S MADE

Our artisan-quality, additive-free, award-winning vodka – crafted via a 225-gallon still with two 35-foot columns and slow filtered for 24 hours – provides the ultimate canvas for infusions of natural elderflower and grapefruit distillate. White Blossom Vodka is lightly sweetened with real sugar from Michigan-grown beets.

TASTING NOTES

Opulent tropical aromas lead, followed by lasting notes of lychee, peach, and pleasantly botanical elderflower. A satiny, dry-yet-fruity medium-to-full body gives way to a warming peppery spice, cream, powdered sugar, and mineral finish. On the rocks or in a cocktail, White Blossom will transport the enchanted sipper to the nearest secret garden of the mind.

“Infused with all-natural ingredients and zero corn syrup, White Blossom is an elegant, smooth, and aromatic flavored vodka that is made to be savored.”
